Capacity

- Maximum Load Capacity for Finishes of 397 lbs (180 Kg)
- 2hp Motor
- Supply Voltage of 110 VAC. Neutral and Earth Ground
- Manual Closing in Case of Power Failure
- Remote Control Module for 100 Controls at a Maximum Distance of 65' 7 $^{3}/_{8}$" (20000mm)

Supports Materials
Up to 397 lbs

4 Attributes

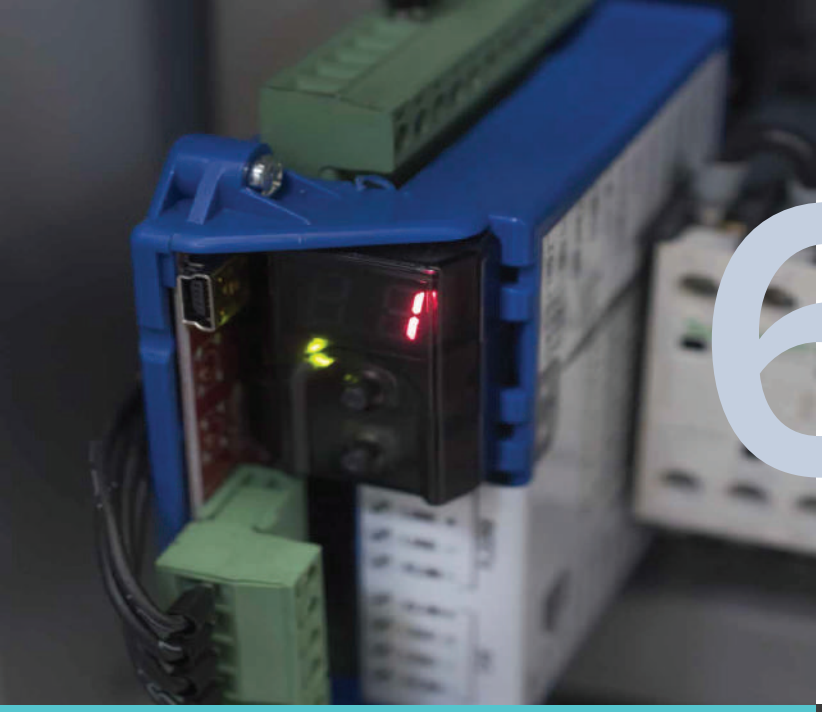
- Remote Control Module for 100 Controls at a Maximum Distance of 65' 7 $^{3}/_{8}$" (20000mm) (Extra Component)
- 219,000 Duty Cycles.
- 200 Daily Cycles
- Super Speed of Operation 5 Sec. x 1m **(Twice That of a Conventional Electric Door)**
- Electrostatic Painting.
- Minimum Maintenance

Components

5

3 Years Warranty

Designed With High-quality Components, **Hydraulic Door®** Works Under the Highest Quality Standards in the Market, Resulting in Longer Product Life and Backed by Knowing That Like All **Parkmatic** Products It Has a Permanent Stock of Spare Parts Since We Are Manufacturers of Most of the Components of Our Equipment



6

2 Adjustable Pressed Terminal Steel Cables

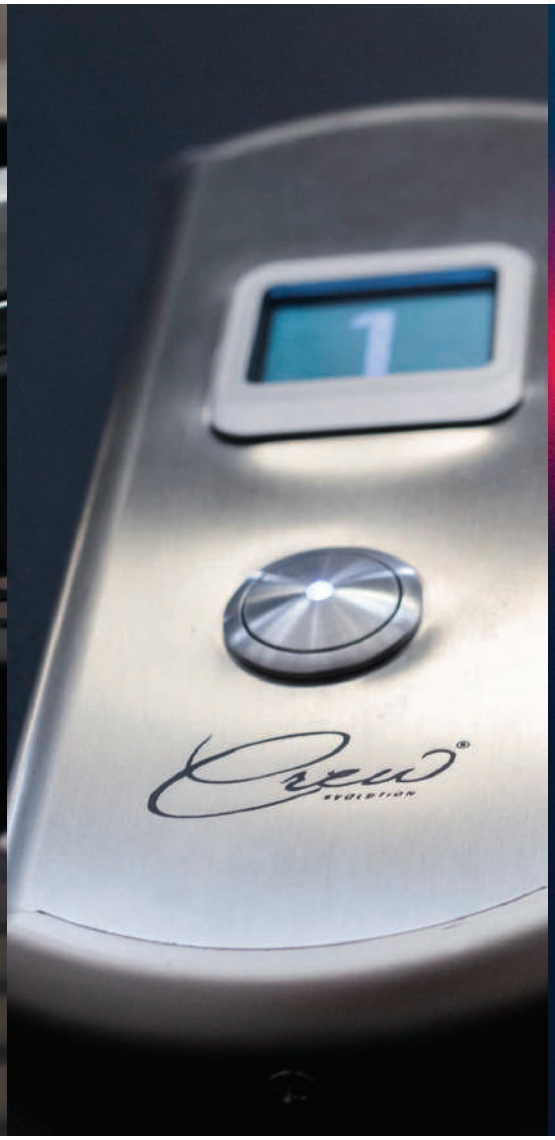
Synchronization of Operation With Lift Operation

Sensor Barrier in Ip 54 Access Frame

7

Extra Components

All Extra Components Are Listed Separately



Magnetic Door Lock

Secures the Curtain Flush When It is Down

Manual Operation Keypad

With Led Indicator and Digital Display

Operation Traffic Light

Light Access Indicator
